Construction starts on Raffles hotel in Boston

By Christina Jelski | Nov 20, 2019

Raffles Hotels & Resorts has broken ground on its first North American property, the Raffles Boston Back Bay Hotel & Residences.

Scheduled to open in early 2022, the 33-story building will be located adjacent to the Boston Back Bay train station and will have 147 guestrooms and 146 branded residences. The development will also include seven affordable-housing units.

Amenities at will include six food and beverage venues, a Raffles Spa with indoor pool and fitness club and a rooftop garden terrace and lounge. A total of 16 communal "gathering spaces" will be spread throughout the property, including several solely for residents.
